Key Dates: 2017 Marketplace Plan Review

Preview of Marketplace Issuer Networks

All information provided in this presentation has been generated from insurance carrier applications and is current as of October 12, 2016.

This information does not represent final networks as they will appear on the Health Insurance Marketplace in 2017. Carriers continually negotiate contract terms with providers, and State review of these networks may result in changes to provider contracts or geographic coverage of health plans.

Hospital listings reflect only those hospitals located in NH. Essential Community Providers (ECPs) are medical care providers who serve predominantly low-income, or medically underserved patient populations as classified by CMS under 45 CFR 156.235 of the Federal Register.

— Network Contracts per Hospital —

2017 Network Profile – SUD Treatment

The New Hampshire Insurance Department, in a new initiative for 2017, provided a list of providers in seven SUD treatment categories requesting that carriers indicate which providers were included in their proposed network(s).

The seven SUD treatment categories provided were:

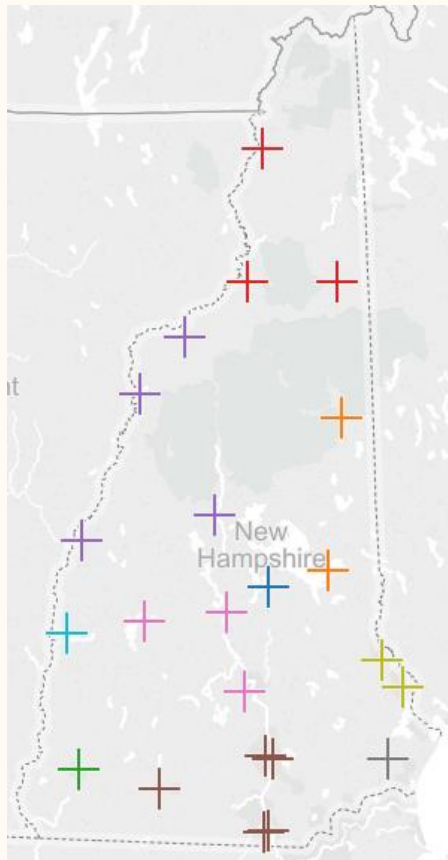

- Intensive Outpatient Program
- Partial Hospitalization
- Residential Services
- Medication Assisted Treatment (MAT) – Buprenorphine (Suboxone)
- MAT – Methadone
- MAT – Naltrexone (Vivitrol)
- MAT – Other Medication

2017 Network Profile – SUD Treatment

- The template provided by the Department included 108 SUD treatment providers throughout the state of New Hampshire. The data set can be found in the Appendix, starting on slide 16.
- The 108 providers listed were generated from a Department created data set aimed at gathering a snapshot of network coverage by SUD treatment category.
- This may not reflect the full breadth of each carrier's SUD coverage by treatment category. For additional information on the providers included in an issuers' network please consult the carrier's provider directory.
